

Clear Candy Envelopes

by nancy

Step 1
Stamp transparencies with a solvent ink. Let dry.

Step 2
Using template (see page 2), cut along solid lines and score along dashed lines.

Step 3
Place transparency over backing as shown, using tape to hold in place while you stitch (or glue) along the edge.

Step 4
Tape the other side and stitch along the edge as before.

Step 5
Remove tape and stitch along the bottom of the envelope.

Step 6
Pull thread ends through to back and tie or tape down.

Step 7
Create envelope topper with die cuts and paper. Fill envelope with candy and adhere the topper. Write recipient's name on the back and send with love! ♥

Trace template onto double-sided paper
(My Mind's Eye 6x6 paper pads are perfect for this!).
This template works with My Mind's Eye 4x6 photo overlays.
